

A photograph of the interior of Hank's Garage Venue. The space is a large, industrial-style hall with exposed steel beams and brick walls. In the foreground, several round tables are set up with black and white checkered tablecloths and black chairs. To the left, a red classic car with its hood open is on display. In the background, more cars are visible, and a balcony with people can be seen. The overall atmosphere is one of vintage charm and modern elegance.
